U.S. Route 9 Complete Streets Preliminary Engineering

Join us for a Public Workshop

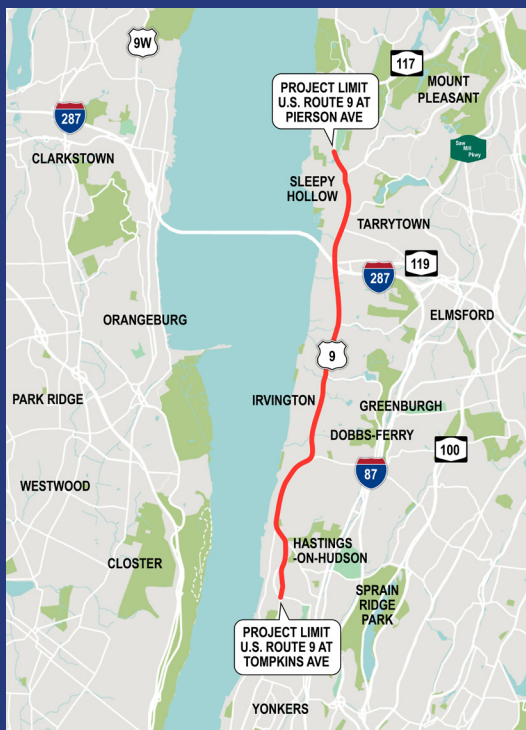

The New York State Department of Transportation (NYSDOT) is conducting preliminary engineering activities for the U.S. Route 9 Complete Streets project. This involves preparing an environmental report with project recommendations. The report will include a preferred design that would enhance safety and improve pedestrian and bicycle facilities along U.S. Route 9.

The project limits are from Pierson Avenue in the Town of Mount Pleasant, Village of Sleepy Hollow, to Tompkins Avenue in the Town of Greenburgh, Village of Hastings-on-Hudson.

Join us at either of these identical workshops starting at 6 p.m. to actively participate in group exercises and provide input and ideas.

The project team will present the reasonable alternatives that have been evaluated.

Project Area

Public Workshop 2 – South Location

Thursday,
September 12, 2024

6 p.m. to 8 p.m.

Mercy University Rotunda
Mercy Hall, 555 Broadway
Dobbs Ferry, NY 10522

Public Workshop 2 – North Location

Thursday,
September 19, 2024

6 p.m. to 8 p.m.

Tarrytown Senior Center
240 W Main St
Tarrytown, NY 10591
